Commissioner for Patents

The Grounds of Rejection is still not in compliance as it fails to provide a concise statement of the grounds of rejection. The appellant should only provide a brief statement including the claim numbers and the art used against them. The first, bolded paragraph provided in the most recent Grounds of Rejection to be Reviewed on Appeal is sufficient. See MPEP 1205.02[R-3](vi). Furthermore, the Grounds of Rejection and the Argument sections are incorrect since they do not include claim 1 in the claim listings. Please note that no additional time is given with this communication and that time continues to run from the Notification of Non-Compliant Appeal Brief dated 13 April 2006.
